

Hospital KPIs

Need visibility at all levels into financial and operational KPIs to drive organizational change?

This application provides top level operational and financial key performance indicators in a single analytic application that empowers leaders to make data based decisions. In addition to the summary level dashboards, it also provides analysis and detail level dashboards that allow users to discover what is impacting the numbers and take action. Immense value is added to an organization by using the Hospital KPI Dashboard as it creates transparency - problems are visible at all levels - which drives action and alignment on improving key metrics and drivers.
