

Physician Financial

Do you want to enable physicians to take ownership of their metrics to improve organizational performance and individual incentives?

By bringing the right information to the right people at the right point in time, this tool drives substantial value by allowing organizations to pinpoint areas of variance and identify issues. With the disparities visible, organizations and physicians can align toward common performance objectives. This application will transform your manual and time-consuming process for physician financial reporting and analysis. Being able to see this data in an automated way on a daily basis, integrated with budgets, with drill-through discovery capabilities drives the ability to generate insights and take action.
